

PANEL RESULTS & COMMENTS

2021 PROJECT SUPPORT II

East Cleveland Farmers' Market Preservation Society

Your Project Title: Coit Market Street Art

Your Project Summary: The Market building is a blank slate of red that needs the life of art to demonstrate activity at the site. The artistic signs of activity preview when the Market is open two half-days per week.

Final Score: Yes. Overall, the panel felt that the applicant provided evidence throughout the application that the funding criteria were met.

CAC Grant Amount: \$3,000

To ensure an impartial and transparent application review process, CAC convened an online panel of arts and cultural professionals from outside the region who evaluated and scored eligible applications.

Panelists scored each application based on the Funding Criteria—Public Benefit, Artistic and Cultural Vibrancy and Organizational Capacity—with an emphasis on Public Benefit. For more details regarding the panel process and full panelist bios, please review the [Panel Guide](#).

Chip Moody
(Chicago, IL)

Drew Digby
(Duluth, MN)

LaShawnda Crowe Storm
(Indianapolis, IN)

Below you will find the panel's scores and any feedback in response to the question: **With an emphasis on public benefit, does the applicant demonstrate evidence that it meets CAC's three funding criteria?**

Note: Panelist scores and comments are presented in no particular order.

Panelist 1

Score: Yes

I really like how the group has come to understand that art can be an important way to build the relationship to the community.

Panelist 2

Score: Yes

It is my opinion that your proximity to communities in need, the value and resources you provide to the needy outweigh the general funding criteria for raising matching funds.

Panelist 3

Score: Yes

I think the art work will go a long way to further build your relationship with the community and like you are taking feedback to address the look of the building with the goal to improve the site over time. I would suggest you look at a community development grant as well for the area to assist in supporting that goal. To that end, be very mindful of how you view the community's food choices. It has been my experience folks eating habits are a reflection of issues rooted in the social determinants of health. As such, this line gives the impression you feel it is the neighbors' fault for lack of access, "to encourage vegetable consumption to improve the health of community members." Just be mindful is all I am saying.
